

TREASURES IN LEADERSHIP

OTHERS TALK ABOUT LEADERSHIP, WE DEFINE IT.

Dan's wife, Joyce, asks a big question. We have exciting news! **BLI is a curator of leadership.** Others talk about leadership, we definitely define it. Become a BLI member and you will understand. It is our joy to celebrate having a great leadership team and an excel-

"Oh, I like that!"

Eleven years ago our trustees started our school. Numbers of students took courses, and received diplomas, and were blessed. All hoped it would become an accredited college, seminary, or even a university. However, they later realized it was not possible. Students did receive some good teaching. However, when online education became a reality, they knew that they did not need to waste their resources competing with the great Christian schools of America. Therefore, over time they developed a completely different approach. Now, we are known as a BLI leadership team. We provide leadership coaching and mentoring, seminars, workshops, and special online opportunities in addition to a relationship with higher education schools that best meet our student's needs.

Over the past six years, Christian education has dramatically changed. It took strong leadership to make a transition into BLI Biblical Leadership Institute. Now, as we journey into 2019 we have coaches mentoring with treasures of leadership to offer. Most of our seminars or workshops today are online for the convenience of students and professors.

We, BLI, have entered into a relationship with one of American best fully-accredited Christian schools, Campbellsville University. The school began in 1906 as a small academy in Central Kentucky. Now, it has over 10,000 students online and on campuses in various states. (See page 2)

Treasures of Leadership

From

The Life of Dr. Billy Graham

Billy Graham shared the Gospel and touched more people than any evangelist in history. It is often said, that he was set apart and anointed by our Lord. He was handsome and his personality was magnetic. Indeed, he was gifted with a tremendous communication skill and had a powerful persuasion. He even had the ability to declare Biblical truth about sin, death, hell, and judgement without making the major audience mad. Some say, "He was successful because he was chosen as a born leader and God appointed." That is certainly true. He always, most humbly, gave all credit to God and insisted it was about the Lord Jesus.

However, his accomplishment and great leadership would not have taken place without certain practices and disciplines Graham faithfully used. Some he learned along the way while others he used from the beginning. He was true, faithful, and focused on his mission. Without those personal practices and traits, he would not have had the effective influence. **It is those areas that we explore in our BLI leadership peer learning group and coaching.** Those are the treasures of leadership that defines a great
